

Juan García Moreno

Computer Engineering Graduate | C · C++ · Linux · Bash · Docker

Córdoba, Spain • jugarmor014@gmail.com • 606 64 98 21 • wanakox.github.io • juan-garcía-moreno • Wanakox

Summary

Computer Engineering graduate from the University of Córdoba with practical experience in Linux environments, virtualization, Docker and software development in C/C++ and Python. Configured a Linux virtualization server as a university student collaborator, designed Raspberry Pi-based hardware for a hackathon prototype and deployed a containerized web application. Interested in junior systems, Linux and C/C++ software engineering roles. Open to remote opportunities across Spain and relocation to Madrid. Available immediately.

Technical Skills

Languages: C, C++, Python, Bash, Java, SQL

Systems & infrastructure: Linux, Docker, Docker Compose, Proxmox VE, Raspberry Pi 5, Git, GitHub

Software & databases: FastAPI, REST APIs, PostgreSQL, MySQL, SQLAlchemy

Projects

TripPlanner — Final Degree Project

- Developed a FastAPI and PostgreSQL application and containerized its services with Docker Compose.
- Deployed the application on a Raspberry Pi 5 using a reverse proxy and HTTPS.

IntubIA — University Hackathon – Córdoba, Spain

Mar 2025

- Second place in a three-person team developing a healthcare prototype in collaboration with IMIBIC.
- Designed the hardware architecture and selected a Raspberry Pi 5, touchscreen LCD and Camera Module 3; developed its PyQt5 interface.

Sports Event Ticketing System

- Developed a Java and MySQL console application for event and ticket management using MVC, DAO and DTO patterns.

Education

BSc	University of Córdoba , BSc in Computer Engineering – Córdoba, Spain Specialization: Software Engineering.	Sept 2022 – Sept 2026
------------	--	-----------------------

Hellenic Mediterranean University , Computer Science (Erasmus Exchange) – Heraklion, Greece Coursework in computer systems security, wireless networks, neural networks and pattern recognition.	Sept 2025 – June 2026
--	-----------------------

Experience

University of Córdoba, University Student Collaborator

- Configured a Linux environment and a Proxmox VE virtualization server for academic and laboratory work.

Languages

Spanish: Native

English: B1 (Cambridge certification; academic exchange in English)
